TRANSFORM YOUR CAFETERIA WITH VISION.

LTI is proud to offer **an interior design service** to help K-12 foodservice operators transform their school's dining area into a cool place where students want to be seen, eat and socialize. With **VISIONDESIGN**, our team utilizes photography, illustration, paint and dimensional art to create a more dynamic and engaging atmosphere.

VISIONDESIGN packages offer a full array of options to choose from, including signage, paint, furniture, food court structures, dimensional art and other accessories. We work with architects, consultants and operators across the country. No matter the application, we have the solution that's right for you. Whether recreating your entire space or developing a custom seating layout, **VISIONDESIGN** is your turnkey design solution. Services include site visits, design renderings, finish schedule, budget estimates, manufacturing and installation — available with **SPECLINE**, **FLEXLINE** and **SELECTLINE** serving counters, or separately.

SIGNAGE

Transform your dining area with **VISIONDESIGN** signage. We have capabilities to enhance the look of your serving area. Our team creates signage that includes lighted signs, brushed aluminum, laminates, printed graphics, stand-off acrylic panels and more. We can match the size, shape and message that's perfect for your facility.

PAINT

Our team will work with you to create the perfect color palettes and paint scheme to invigorate your space. If you'd like to have stripes and diagonals painted on the walls, no problem. One of our professional paint crews will even paint your space at your convenience.

Show your spirit by incorporating your school's mascot, colors and themes into the dining area.

Paint colors, shapes and fonts can totally transform and captivate the personality of your space.

Contact LTI today at (888) 584-2722 to start your **VISIONDESIGN** project.

Modernize your seating with customized mobile and stationary folding booths and bars manufactured by AmTab.

FURNITURE

When you're looking to offer on-trend seating, we can help. We have a variety of seating options - from traditional, durable seating to high-tops, booths and restaurant-style seating complete with charging stations. Our furniture is manufactured by AmTab, a leader of innovative design and engineering. Products stand the test of time with the highest quality raw materials.

Food court structures are a great way to add another point of service without major construction.

FOOD COURT STRUCTURES

Create a food court environment utilizing LTI's unique modular-built columns and soffits. Our designers will work closely with you on layout and design services. Our food court structures are a feasible alternative to major construction. It's also an easy way to add another station to quickly move students through a serving line.

Choose from high-tops, booths and restaurant-style seating manufactured by AmTab,

LTI IN ACTION

ANDREW JACKSON HIGH SCHOOL

When Andrew Jackson High School in Jacksonville, Florida became a magnet school within the Duval County Public School system, changes to the cafeteria infrastructure were necessary to serve the increasing student body. In order to gain more meal participation by both students and faculty, we designed the cafeteria to have a more inviting atmosphere. We also made the functionality of the serving more efficient and productive, which helped create a more appealing work environment for the food service staff.

LTI manufactured and installed the new serving counters, the food court columns and soffits — creating the retail and restaurant-like environment and additional serving stations to speed along service.

After ▶

We also helped design and provide all new signage and corresponding paint schemes throughout the cafeteria with our **VISIONDESIGN** planning and décor service. The final product provided a beautiful and visually appealing aesthetic that emulates today's retail-like atmosphere.

Before ▲

After ▶

The kitchen and cafeteria became far more operationally sound and efficient through its addition of a food prep room as well as two serving lines — increasing the total number of access points from two to four and increasing meal plans by 50 in the first year.

LET'S GET STARTED

Contact us to start the transformation experience. The process will begin with an initial meeting to define your needs and goals.

Our experts will then be with you through the entire process. From the creation of a budget to a site survey, LTI will be your guide.

Once a design proposal is presented, LTI will work through any revisions needed. From there, we will assist with bid specifications and then install YOUR Vision.

THE RIGHT DESIGN SOLUTIONS FOR YOUR SCHOOL

We understand what it takes to serve in the educational market. In fact, we've been partnering with schools since the 1980s to learn more about the challenges they face and the solutions that work best for them. Today, our team uses that experience to develop equipment — and the technology that drives it — to make K-12 school foodservice easier. So whether you count your students by the hundreds or by the thousands, LTI has the ideal serving line solution complete with design services for your school's dining facility.
