

## WRAPPED AND READY!

You want to provide your students with great-tasting, high quality meals - and you need to do it quickly. Pre-packaging your meals can be a great option to speed up service while maintaining safety and food quality, but sourcing the right type and quantity of packaging can slow you down.

ProView can help! We offer a variety of fully-cooked, restaurant-quality items with the perfect packaging included right in the case. Students will appreciate the retail look and flavor of their favorite chicken sandwiches, nuggets, tenders, and popcorn bites, and your teams will love how easy our packaging makes meal service.
